Лабораторная работа №14

Настройка файловых служб Samba

Студент: Талебу Тенке

Группа: НФИбд 02–23

дисциплина: **Администрирование сетевых подсистем (Lab 14)**

Цель работы

- Целью данной работы является приобретение навыков настройки доступа групп пользователей к общим ресурсам по протоколу SMB.

```
root@server:~

agrant@server ~]$ dnf -y install samba samba-client cifs-utils
ror: This command has to be run with superuser privileges (under the root user on mos
systems).
agrant@server ~]$ sudo -i
oot@server ~]# dnf -y install samba samba-client cifs-utils
cky Linux 9 - BaseOS                          5.6 kB/s | 4.3 kB     00:00
cky Linux 9 - AppStream                       5.7 kB/s | 4.8 kB     00:00
cky Linux 9 - Extras                          7.5 kB/s | 3.1 kB     00:00
pendencies resolved.
